

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

—Welch, Fracker Company have published a work entitled "In Western Levant," by Francis C. Sessions, illustrated by Henry W. Hall. It is a record of travel in Spain, Morocco, Algeria, and Tunis, with brief descriptions of the most noted cities and architectural works, as well as of the character and habits of the people. There is nothing of much scientific interest in the book, the author having evidently sought for entertainment during his travels rather than for information; and the work is marred by a too florid rhetoric. Nevertheless those who are fond of books of travel will find many items of interest in this one. It is printed on good paper, suitable for the illustrations, which are pleasing.

—The fifth volume of the new edition of "Chambers's Encyclopædia" has been issued, and deals with the various topics from "Friday" to "Humanitarians." The scientific articles are quite numerous and important. Professor Geikie treats of geology; John S. Keltie, of geography; J. S. Mackay, of geometry; P. G. Tait, of heat; J. Arthur Thompson, of heredity; and there are many other articles that would demand notice in a minute survey of the work. Among the articles of a political and historical character are those on Germany, Great Britain, Holland, and Ancient Greece; while Charles I. Elton, M. P., contributes a paper of several pages length, on government. Mr. Gladstone furnishes the article on Homer, while Justin McCarthy sketches the life of Gladstone himself. Other biographical papers are those on Gen. Grant, written by Gen. Wilson; on Goethe, by Professor Dowden; and those on Grote, Hooker, and Hegel; while Henry George contributes a sketch of himself. This encyclopædia is, in our opinion, the best for the mass of reading and thinking men. The "Britannica," of course, gives a much larger amount of information on the details of the subjects treated; but then its articles are often too elaborate for a busy man to read, yet not elaborate enough for thorough students of their respective subjects. Besides, Chambers's has now the advantage of being the latest work of the kind in the market. It is published in this country, in

agreement with Messrs. Chambers, by the J. B. Lippincott Company, Philadelphia.

—We have received a small pamphlet entitled "An Open Letter to Hon. Edward M. Paxson, Chief Justice of Pennsylvania." It is written by Richard B. Westbrook, who describes himself as both a bachelor of law and a doctor of divinity, and is a criticism of certain remarks of Chief-Justice Paxson in an address before the law school of the University of Pennsylvania. In that address Judge Paxson had affirmed that the law of Sinai was "the first law of which we have any knowledge," and that Moses was "the greatest statesman and law-giver the world has ever produced." These statements Mr. Westbrook disputes, and gives in an argument of moderate length very good reasons for doing so. He has no difficulty in showing that Egypt and some other countries had elaborate systems of law long before the date assigned to Moses; and he also shows, on the grounds now universally accepted by biblical scholars, that the legislation attributed to Moses is, for the most part at least, of very much later date. Exceptions may be taken to some of his statements; but, on the whole, every one whose eyes are open to the results of historical investigation will agree that he has proved his case. The pamphlet is published for the author by the J. B. Lippincott Company, Philadelphia.

—The Exchange Printing Company, 47 Broad Street, New York, has issued a book entitled "How to preserve Health," by Louis Barkan, M.D. The claim is made that this work is published with the purpose of bringing to public attention the results of the latest medical investigations. The objection to the author's plan that naturally occurs to one reading the pages is that a little knowledge is a dangerous thing, and that the author has gone too far in recommending certain courses of treatment for ailing humanity which shall be resorted to without consultation with a competent physician.

### CATARRH

#### Catarrhal Deafness—Hay Fever.

A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp to pay postage, by A. H. Dixon & Son, 337 and 339 West King Street, Toronto, Canada.—*Christian Advocate*.

Sufferers from Catarrhal troubles should carefully read the above.

## Mothers

Save your children from diphtheria and other contagious diseases by using in your Nursery, Bath, and Sleeping Rooms the

**SHERMAN "KING" VAPORIZER,**  
the ONLY  
CONTINUOUS and  
ABSOLUTE  
DISINFECTANT  
**KNOWN, PROVED, AND WARRANTED.**

With its use, that deadly, secret, invisible enemy, Sewer Gas and all other Noxious Vapors are rendered harmless.

ALL IMPURE AND OFFENSIVE ODORS ABSOLUTELY REMOVED.

Each Vaporizer sold is charged for use. No care except to replenish once in two months at expense of 4 to 8 cents, according to size. Three sizes, \$3.50, \$5.00, \$8.00. Illustrated Pamphlet free.

SHERMAN "KING" VAPORIZER COMPANY,  
Chicopee Falls, Mass.; Boston, New York,  
Philadelphia, or Chicago.

### A New Method of Treating Disease.

HOSPITAL REMEDIES.

What are they? There is a new departure in the treatment of disease. It consists in the collection of the specifics used by noted specialists of Europe and America, and bringing them within the reach of all. For instance, the treatment pursued by special physicians who treat indigestion, stomach and liver troubles only, was obtained and prepared. The treatment of other physicians celebrated for curing catarrh was procured, and so on till these incomparable cures now include disease of the lungs, kidneys, female weakness, rheumatism and nervous debility.

This new method of "one remedy for one disease" must appeal to the common sense of all sufferers, many of whom have experienced the ill effects, and thoroughly realize the absurdity of the claims of Patent Medicines which are guaranteed to cure every ill out of a single bottle, and the use of which, as statistics prove, *has ruined more stomachs than alcohol*. A circular describing these new remedies is sent free on receipt of stamp to pay postage by Hospital Remedy Company, Toronto, Canada, sole proprietors.

### A TEMPORARY BINDER

for *Science* is now ready, and will be mailed postpaid on receipt of 75 cents.

This binder is strong, durable and elegant, has gilt side-title, and allows the opening of the pages perfectly flat. Any number can be taken out or replaced without disturbing the others, and the papers are not mutilated for subsequent permanent binding. Filed in this binder, *Science* is always convenient for reference.

## DO YOU INTEND TO BUILD?

We offer an Atlas of **Sensible Low Cost Houses**, a portfolio 11x14 inches, containing **handsome illustrations**, floor plans, and full descriptions of this popular design, and fifty-four others, ranging in cost from \$800 to \$7,200. This specimen design is for a cottage with seven rooms, and costing \$1,100. It combines beauty and comfort, has two large porches, and is a popular and practical working design, having been built several times for its estimated cost.

No matter what style of a house you may intend to build, it will pay you to have this book.

We will send this Atlas, postpaid, on receipt of price, \$1.—N. D. C. Hodges, 47 Lafayette Place, New York.

**BOOKS: How to Sell them.** Send a list, stating condition, edition, etc., to Science Book Agency, 47 Lafayette Place, New York.

## DICTIONARY OF ECONOMIC PLANTS,

BY JOHN SMITH,

Associate of the Linnæan Society, author of

"*Historia Filicum*," "*History of Bible Plants*," etc., etc.

For more than forty years Mr. Smith was connected with the Royal Gardens, Kew, which gave him remarkable opportunities for becoming acquainted with the largest collection of living plants, native and exotic, ever brought together; and from 1846, he was associated with the late Sir W. Hooper in building up the Kensington Museum of Economic Botany. Based on all this experience, Mr. Smith has produced this Dictionary which gives under their popular names information about plants that furnish the wants of man, their history, products and uses. Having received a large invoice of this book from the London publisher, we offer to mailcopies postpaid at a discount.

List price, \$3 50: our price, \$2.80.

## Fact and Theory Papers

### THE SUPPRESSION OF CONSUMPTION.

By GODFREY W. HAMBLETON, M.D. 12°. 40c.

"The inestimable importance of the subject, the eminence of the author and the novelty of his work all combine to render the little treatise worthy of special consideration. . . . We heartily commend Dr. Hambleton's booklet and wish there were more such works."—*Editorial, Boston Daily Advertiser*.

"It is full of facts and wisdom."—*Philadelphia Saturday Evening Post*.

"The book contains much of importance to the medical fraternity, as well as the general populace."—*Burlington Hawkeye*.

### THE SOCIETY AND THE "FAD."

By APPLETON MORGAN, Esq. 12°. 20 cents.

"Mr. Morgan founds a sensible and interesting address upon a text furnished by a sentence from a young ladies' magazine; namely, 'Browning and Ibsen are the only really dramatic authors of their century.'"—*New York Sun*.

"In the little book before us the treatment of the subject is dispassionate and logical. The comparison drawn throughout this monograph is between Shakespeare and Browning, the subject-matter being largely based on the Browning and Shakspearian societies and how they came to exist. A pleasant half-hour or more may be spent over the book, and some useful information derived from it."—*Englewood Times*.

### PROTOPLASM AND LIFE.

By C. F. Cox. 12°. 75 cents.

The author of this book was for some years president of the New York Microscopical Society, and in this volume he sets forth his views on the spontaneous generation theory and its relation to the general theory of evolution, and on protoplasm and the cell doctrine.

Ready July 5.

### THE CHEROKEES IN PRE-COLUMBIAN TIMES

By CYRUS THOMAS. 12°. \$1.

Dr. Thomas in this work will reverse the usual method of dealing with prehistoric subjects; that is to say, he will commence with the earliest recorded history of the tribe as a basis and trace the chain back step by step by the light of the mounds, traditions, and other evidence, as far as possible. He has already presented to the public some reasons for believing the Cherokees were mound-builders, but additional evidence bearing on the subject has been obtained. A more careful study of the Delaware tradition respecting the Tallegwi satisfies him that we have in the Bark Record (Walam Olum) itself proof that they were Cherokees. He thinks the mounds enable us to trace back their line of migration even beyond their residence in Ohio to the western bank of the Mississippi. The object is therefore threefold: 1. An illustration of the reverse method of dealing with prehistoric subjects; 2. Incidental proof that some of the Indians were mound-builders; 3. A study of a single tribe in the light of the mound testimony. This work will be an important contribution to the literature of the Columbian discovery which will doubtless appear during the coming two years.

Ready at an early date.

### THE TORNADO.

By H. A. HAZEN. 12°. \$1.

Professor Hazen is one of the prominent meteorologists connected with the United States Signal Office. In this work he reviews our present information as to tornadoes, severely criticising some of the opinions held in regard to them up to this time. No one has given a more careful study to these destructive storms than has Professor Hazen, and his book will prove a decided contribution to the world's knowledge. In this book will be found a careful discussion of the important question of Tornado Insurance, now attracting so much attention. Hundreds of dollars may be saved by people who are thinking of such insurance by following the principles here made plain.

In Preparation.

### Foods and Food Adulterants.

By EDGAR RICHARDS, Ex-president National Chemical Society.

### Color in Nature.

By G. BROWN GOODE and others.

## Wants.

Any person seeking a position for which he is qualified by his scientific attainments, or any person seeking some one to fill a position of this character, be it that of a teacher of science, chemist, draughtsman, or what not, may have the 'Want' inserted under this head FREE OF COST, if he satisfies the publisher of the suitable character of his application. Any person seeking information on any scientific question, the address of any scientific man, or who can in any way use this column for a purpose consonant with the nature of the paper, is cordially invited to do so.

**AN EXPERIENCED TEACHER** desires to hear of a town in which he can establish a high school. Or, he will lease an academy. Address, G., Lock Box 19, Suffern, N. Y.

**WANTED.**—By a lady-graduate of Cornell University, position as teacher in high school, seminary or college; prepared to teach the following branches, employing, so far as is practicable, the laboratory method: Geology, Botany, Zoology, Physiology; also, if desired, Physics, Chemistry, Logic and Psychology. References to heads of above-named departments in Cornell University. JENNIE T. MARTIN, care Cornell University, Ithaca, N. Y.

**A GENTLEMAN** of experience, highly recommended, liberally educated at home and abroad, desires to correspond with parties needing an instructor in the classics or modern languages in a high grade institution. Address EARLHAM, Germantown, Pa.

**WANTED.**—At the Bryant Summer School, Roslyn, L. I., a Lady to teach Sea-Life, and other Sciences. July 8-Sep. 8. Ten weeks to six months according to her convenience. Other papers please copy. E. HINDS, A.M., Principal.

**WANTED.**—Information concerning the production of Mushrooms in caves and other places. Address M. H. CRUMP, care Ky. Geological Survey, Frankfort, Ky.

**A YOUNG MAN**, graduate from an American College, who has studied a year in Germany, and is now studying in Paris, would like professorship in chemistry. References from some of the best chemists. Address CHARLES E. LINEBARGER, Post-Restante, Paris, France.

**WANTED.**—An opportunity to study qualitative analysis in or near New York City during the summer. W. J. L., 130 Spring st., Sing Sing, N. Y.

**ASSAYER.**—Wanted position as above, has had three years' practical experience in a London firm of assayers to the Bank of England, Royal Mint, etc., etc. Thorough knowledge of bullion assaying, and of gold, silver and lead ores. I. FRED. JOHNSON, Northgate Brewery, Canterbury England.

**AN OHIO STATE UNIVERSITY** graduate desires a position for next year as laboratory assistant or instructor in chemistry and physics. Three years' special preparation for such work. Two years' experience in teaching. References as to character and scholarship. Address C. S. ARNOLD, O. S. U., Columbus, O.

**A GRADUATE** of Princeton, for several years university student and Fellow in Biology, desires a position either to teach biology or as assistant in a biological laboratory. Would prefer the latter and be satisfied with a moderate salary if the position afforded time for the prosecution of original research. Address, O. S., BOX 86, Princeton, N. J.

### Exchanges.

[Free of charge to all, if of satisfactory character. Address N. D. C. Hodges, 47 Lafayette Place, New York.]

For exchange—14 volumes (1883-1889) American Journal of Science, 10 volumes (1880-1889) American Naturalist, 21 volumes (1879-1890) English Mechanic, all in good condition for binding; also, Morris Typewriter. Wants first-class microscope, camera, chemical or physical apparatus. Address, with full particulars, E. R. Chadbourn, Lewiston, Maine.

Wanted.—To exchange land and fresh-water mollusca, (principally *Helices Achatinellae*, Clausilidae and Limnaeae,) for those not in my collection. Lists exchanged. Address E. H. White, Box 200, Astoria, Or.

To exchange for other books: Meek's Invertebrate Paleontology, Cope's Cretaceous Vertebrata, Leidy's Extinct Vertebrate Fauna, Lesquereux Cretaceous Flora. All being volumes of the Hayden Final Reports. Address, giving lists, T. N. Glover, Suffern, N. Y.

Meteorites.—Mr. George F. Kunz, 11 to 15 Union Square, New York, or Hoboken, N. J., will buy or give in exchange for whole or parts of meteorites. Whole ones, undescribed ones, and entire falls especially desired.

Wanted.—To furnish roots of *Dodecatheon Meadia*, *Sarracenia purpurea*, and other wild flowers, native of Southern Wisconsin, in quantities. D. E. Willard, Curator of Museum, Albion Academy, Albion, Wis.

I have a number of duplicates of microscopic slides, mostly botanical, which I would like to exchange for others not now in my collection. Send list of what you have to exchange and get my list. S. R. Thompson, New Wilmington, Pa.
